

PHOTO GRAPHY & FILM STUDIO

Photography isn't just my craft — it's my way of preserving emotion, elegance, and the unspoken essence of every couple I have the honor to work with. My promise is simple: to transform your most meaningful moments into timeless images that will live far beyond the day itself.

About Me

I understand that every detail, every spontaneous moment, is crucial on your wedding day. That's why I always bring along a talented second photographer to make sure nothing goes unnoticed. And, being based in Cabo, you won't have to worry about the added cost of travel or accommodations for myself or my team.

Let me be the visual storyteller of your love story, creating luxurious and romantic memories that will last a lifetime.

My Promise

Before imagining your perfect wedding photos, be open to adventure and collaboration. Trust and creativity are key to capturing meaningful memories.

Let's draft a creative pact to unleash our imagination and break free from traditional wedding photography norms. Embrace the unknown, try new things, and let's discover the purest version of your love. This is a journey for both of us.

EMBARK — ON A — JOURNEY

*...timeless memories and
moments frozen in time, where
photography and videography
come together to craft a
love story like no other...*

*...with a touch of romance and a hint of poetry, our services
capture the essence of your love and turn it into a visual masterpiece.
Let us narrate your tale and preserve the most precious
moments of your life in a luxurious and timeless way.*

The Film — *Experience*

There's something sacred about shooting on film—each frame is a decision, a heartbeat, a moment that can't be repeated. In a fast world of instant edits, film slows everything down. It invites us to be present, to feel, to trust the process. We capture your love story using KODAK 35mm and 120mm film—formats known for their richness, texture, and soul. Every image is crafted with intention, not for perfection, but for honesty—for that quiet glance, the wind in your dress, the light falling just right. It's about remembering not just how it looked, but how it felt. Whether you're barefoot by the ocean or exchanging vows under desert skies, this is for those who want more than images—they want legacy.

- 4 hours of photography
- 70 final images
- Shot entirely on KODAK film
- Includes film stock, development, and digitization

Note: This package is not sold separately.
It is offered exclusively as an add-on
to our photography or video services.

Content — Creator

We capture the behind-the-scenes of your big day: the candid smiles, the nerves before the ceremony, the spontaneous laughter at the party. Fresh, natural, and dynamic content created especially for social media, ready to share the very next day.

- 6 hours coverage:
- Behind-the-scenes, first look, ceremony, cocktail.
- Instagram Stories (next day)
- Instagram Reel Recap (next day)
